

1. A survey asked “How often do you exercise?” Of 120 people surveyed, 18 exercised daily, 24 exercised twice a week, 42 exercised 3 times a week, and 36 exercised once a week or less. Make a circle graph of the data.

2. The chart below shows the number of students that were members of the debate club from 1999 to 2002. Make a circle graph to display each year’s membership as a fraction of the total membership for all four years.

| Debate Club | Membership |
|-------------|------------|
| 1999 | 55 |
| 2000 | 80 |
| 2001 | 40 |
| 2002 | 75 |
